

Web Hosting Acceptable Use Policy (AUP)

Version 1.2

Updated 1 November 2021

HATCHET

This service level agreement applies only to 'web and email hosting services' as provided by Hatchet Pty Ltd.

1. Definitions

- 1.1. "Customer" means the person(s) to whom the client has authorised access to the web hosting for the purposes of configuration, testing or development or those persons authorised/requested to act on behalf of the client.
- 1.2. "Account" means the account held with Hatchet by the Customer that is used for billing, contact information and details of the Service(s) assigned to the customer.
- 1.3. "cPanel" refers to the web hosting Service control panel and "cPanel user" refers to the Customer's Service on the web hosting cPanel service environment.
- 1.4. "Service", "Service(s)" or "Services" means any product(s) or service(s) the Customer has signed up to use. This can include, but is not limited to, any Legacy Services, the provisioning of space on one of our servers and a connection to and from the internet for web, email hosting and/or FTP services to function at the level specified in the chosen service level, domain name registration or transfer or renewal, SSL and VPS Services. These product(s) and service(s) are identified in full within the Hatchet WHMCS Management System. Additionally, the specific details of the Services can be found within the Hatchet WHMCS management system.
- 1.5. "Hatchet" or "Company" means Hatchet Pty Ltd of Western Australia, Australia.
- 1.6. "Hatchet WHMCS Management System" and "Management System" refers to Hatchet's customer account, billing and management portal, available online at <https://hosting.hatchet.com.au>.
- 1.7. "Support Ticket" refers to an electronic message sent by the Customer to Hatchet via email to support@hatchet.com.au for assistance or for any questions they may have with any Service(s).

2. Acceptance

- 2.1. The Customer signified acceptance of the Acceptable Use Policy upon signup to Hatchet and their subsequent acceptance of the Customer Service Policy and Service Level Agreement.
- 2.2. The Customer acknowledges that they are solely responsible for ensuring that all Service(s) are in full compliance with this policy, and that they are solely responsible for the files and applications that have been uploaded and executed.

3. Unacceptable Content and Material

- 3.1. The Customer may not publish, transmit, distribute or store any content or material on Hatchet's servers or network that Hatchet believes:
 - 3.1.1. Constitutes child pornography;
 - 3.1.2. Is excessively violent or incites, threatens or implies violence;
 - 3.1.3. Contains harassing content or hate speech;
 - 3.1.4. Is unfair or deceptive under any relevant Fair Trading or Consumer Affairs act in your state;
 - 3.1.5. Is defamatory or violates a person's privacy;
 - 3.1.6. Creates a risk to a person's safety, health or security;
 - 3.1.7. Compromises national security or interferes with an investigation by any law enforcement agency;
 - 3.1.8. Improperly exposes trade secrets or any other confidential or proprietary information of another person or business;
 - 3.1.9. Is intended to assist others in defeating technical copyright protection, which includes illegal file sharing and torrents;
 - 3.1.10. Clearly infringes on another person or businesses Trade Mark, patent or property;
 - 3.1.11. Promotes illegal drugs or violates import or export laws;
 - 3.1.12. Relates to illegal gambling or fire arms trafficking;
 - 3.1.13. Is otherwise illegal or solicits conduct that is illegal under laws applicable to the Customer or to Hatchet;
 - 3.1.14. Is otherwise malicious, fraudulent, or may result in retaliation against Hatchet by offended viewers.

4. Prohibited Use

- 4.1. Shared cPanel web hosting Services may not be used for the following purposes:
 - 4.1.1. For storage of backup archives nor any data which is not directly related to and accessible through the website itself.
 - 4.1.2. For storage of email data exceeding 5GB in total per service; this total encompasses all email inboxes additional directories within the cPanel service including the default catchall email account.
- 4.2. Services, including but not limited to shared cPanel web hosting Services and Virtual Private Servers (VPS), may not be used for any of the following activities:
 - 4.2.1. IRC scripts or bots;
 - 4.2.2. Proxy scripts or anonymous browsing utilities;
 - 4.2.3. Image or file hosting scripts (similar to Photobucket, Rapidshare, etc);
 - 4.2.4. IP scanners;
 - 4.2.5. Pirated software or "warez" sites;
 - 4.2.6. Banner advertisement services;
 - 4.2.7. Lotteries, banking or investment sites (such as Pyramid or Ponzi schemes);
 - 4.2.8. Hacker focussed sites, archives or programs;
 - 4.2.9. Sale of any controlled substance without having the appropriate permits;
 - 4.2.10. Sites promoting illegal activities;
 - 4.2.11. Any game servers (such as Counter Strike, Half Life, etc);
 - 4.2.12. Any VoIP service primarily associated with game server communities (such as TeamSpeak);
 - 4.2.13. Any other purpose that Hatchet management have deemed as unacceptable.

5. Security

- 5.1. The Customer acknowledges that they are solely responsible for what is hosted from and stored in the Service.
- 5.2. The Customer agrees to keep all PHP and CGI scripts up to date with the latest release or stable versions as directed by the publisher or developer. Failure to do this may result in security vulnerabilities leading to your Service being compromised, defaced or destroyed.
- 5.3. The Customer warrants that their Service usernames and passwords will be kept in a safe and secure location at all times, and that they will not use dictionary words or consecutive strings as a password.
- 5.4. The Customer agrees to keep all file and folder permissions set correctly.
- 5.5. Customers with VPS Services are required to:
 - 5.5.1. Ensure the VPS is secured as soon as the Service has been provisioned by Hatchet
 - 5.5.2. Install firewall software (we recommend UFW and CSF);
 - 5.5.3. Perform security audits and updates of system software on a regular basis;
 - 5.5.4. Use a non-root account for SSH login, and prohibit root and password login;
 - 5.5.5. Perform any other maintenance that is required on the VPS service on a regular basis.

6. Excessive Resource Usage

- 6.1. Per CPU core limits apply to all shared cPanel web hosting Services, and are limited to:
 - 6.1.1. 100% utilisation per cPanel user on cPanel Services;
- 6.2. For all shared cPanel web hosting Services, the Customer may not:
 - 6.2.1. Perform any task which unreasonably consumes server resources leading to degradation of the shared hosting server environment for other Customers;
 - 6.2.2. Perform any task which generates high IO Load;
 - 6.2.3. Consume large amounts of system memory;
 - 6.2.4. Consume greater than 250,000 inodes, where 1 file equals 1 inode;
 - 6.2.5. Execute a script which takes longer than 180 seconds to complete;

HATCHET

- 6.2.6. Operate a script which does not close MySQL connections upon completion;
 - 6.2.7. Run any server-side or stand-alone processes or daemons;
 - 6.2.8. Run any bit torrent applications, trackers or clients;
 - 6.2.9. Run any web spiders or indexers;
 - 6.2.10. Run cron entries with intervals less than 15 minutes;
 - 6.2.11. Use PHP includes that call the full URL instead of a local file (eg.
- 6.3. For all shared cPanel web hosting Services, the Customer must request permission from Hatchet and supply a valid reason before using any of the following commands in scripts, SSH or via any other means:
- 6.3.1. rsync;
 - 6.3.2. tracert, traceroute or traceroute6;
 - 6.3.3. ping or ping6;
 - 6.3.4. mtr;
 - 6.3.5. lynx;
 - 6.3.6. ftp;
- 6.4. For all VPS Services, the Customer:
- 6.4.1. May not use more than 75% total utilisation of all available vCPU cores for more than 300 seconds;
 - 6.4.2. May not have a sustained read or write speed of more than 1,000Kb/s over a 300 second period;
 - 6.4.3. May not have a sustained network throughput (in or out) of more than 10Mbit/s over 300 seconds;
 - 6.4.4. Should ensure that they have sufficient physical memory to run all applications and do not continuously use swap space, which causes high IO consumption.
- 6.5. Hatchet reserves the right to suspend any service utilising excessive network resources, and reserves the right to charge additional usage fees for excessive usage. Hatchet may make reasonable attempts to notify the Customer at the time of suspension, however, notification is not guaranteed and the Customer should ensure they are compliant with all policies.

7. Backups

- 7.1. Any shared cPanel web hosting Service that exceeds 5GB in size per cPanel user will be automatically excluded from all backup routines and rotations. In this case, Hatchet may notify the Customer via email and give them the option to:
 - 7.1.1. Remove any data that is not needed and bring the total back to being under the 5GB limit, allowing the Service to be re-introduced to the backup routine and rotation;
 - 7.1.2. Purchase an Extended Backup add-on for a nominal monthly fee which raises the limit to 20GB per service;
 - 7.1.3. Continue without Hatchet taking backups and rely solely on their own backups for all disaster recovery scenarios.

In the event that Customer does not receive the notification from Hatchet, the option as detailed in 7.1.3 (“Continue without Hatchet taking backups and rely solely on their own backups for all disaster recovery scenarios”) will be selected.

- 7.2. The Customer acknowledges if a VPS Service has the backup space add-on, it is their sole responsibility to ensure that the backup space has been correctly mounted, formatted and that backups are actively being taken, even if Hatchet staff completed the initial setup and configuration of the VPS.
- 7.3. The Customer warrants they will maintain a local or off-site backup of their Service data at all times.
- 7.4. Hatchet will not be held liable for data loss under any circumstances and it is the Customer’s sole responsibility to ensure that they have a backup of all data.

8. SPAM and Bulk Email

- 8.1. The Customer warrants that they will not knowingly use the Service for sending any unsolicited email or any unsolicited bulk email (commonly known as spam).
- 8.2. The Customer may not use any purchased email list for individual or bulk email sending.
- 8.3. Hatchet assigns a limit of 250 outbound emails per domain per hour on all web hosting services (unless specified). Any Customer who attempts to send more than the allowed amount will receive an undeliverable message for up to one (1) hour after the limit has been reached. All email over the limit will be discarded.

HATCHET

- 8.4. The Customer agrees that all mailing list applications, including but not limited to Mailman, will have no more than 4,000 individual email addresses per list per domain.
- 8.5. The Customer warrants that all mailing lists used are “opt-in” by the recipient, and all recipients in the list have consented to being on the list.
- 8.6. The Customer warrants that all commercial emails sent contain an appropriate mechanism for the recipient to “opt-out” of the list.
- 8.7. The Customer warrants that all email sent, either individually or bulk, complies with the Australian Spam Act 2003 (http://www.acma.gov.au/WEB/STANDARD/pc=PC_310322), the United States CAN-SPAM Act 2003 (<http://www.ftc.gov/bcp/edu/pubs/business/ecommerce/bus61.shtm>) and any other relevant Spam-related legislation that may be created or amended from time to time.

9. Non-compliance and Remedy

- 9.1. Any Service(s) that are found to be in breach of this policy but have not caused any known inconvenience to other Customers will result in an email being sent to the Customer asking for changes to be made in order to comply with this policy and two (2) days to make the changes. The Customer is required to acknowledge this email and advise Hatchet what actions have been taken to remedy the breach. Failure to comply may result in the Service(s) being suspended without additional warning.
- 9.2. Any Service(s) that are found to be in breach of this policy that have caused issues and/or degradation of service for other Customers, will result in immediate suspension followed by an email requesting changes to be made in order to comply with this policy. The Service(s) will only be unsususpended once the Customer has acknowledged the breach and agreed in writing to remedy the breach.
- 9.3. Any Service(s) that are found to be in breach of this policy and have recorded a prior breach within three (3) months of the new breach will result in immediate suspension followed by an email requesting changes to be made in order to comply with this policy. The Service(s) will only be unsususpended once the Customer has acknowledged the breach and agreed in writing to remedy the breach, and a \$66.00 re-activation fee has been paid in full.
- 9.4. Any Service(s) that are found to be in breach of this policy and have recorded two (2) prior breaches within three (3) months of the new breach, will result in immediate suspension followed by an email advising that the Service(s) must be moved to another provider immediately. Hatchet will supply the Customer with a backup archive of their files if available, and termination of the service will occur within

HATCHET

seven (7) days. If the Customer does not respond to this notice, the Service(s) will be automatically terminated in thirty (30) days.

- 9.5. Suspension advisory emails (as detailed in 9.1 to 9.4) will be sent to the nominated account holder email address, and the Customer warrants that, in line with the Wholesale Reseller Agreement, this address will be kept current and up to. We recommend using an externally hosted email address to ensure continued delivery of important service information and notifications.
- 9.6. The Customer will be solely liable for any fees or charges that are paid by Hatchet to third party providers for the unblocking of any restrictions they have placed due to Service(s) operated by the Customer breaching this policy.
- 9.7. The Customer will not be entitled to a refund if any of Hatchet's Terms, Policies and Agreements have been breached.

10. Changes

- 10.1. Hatchet may amend our Service Level Agreement at any time. Changes to this agreement will become effective upon their publication to our website.
- 10.2. Continued use of the Service(s) constitutes acceptance of the amended terms. If you do not wish to accept the amended terms, you may request cancellation of your Hatchet account.

If you have any questions about this agreement please contact our support team via email at support@hatchet.com.au
